

### ACCESSORIES

#### EPP-100 Power supply 100 W

Art no: 103100.02

- Power supply for E-series
- 100 W output power
- 11 separate outputs
- 2A current limit on all outputs
- 7.5V outputs
- Input voltage range 94-264V
- Mounting in 19" base unit (EBU-100)
- Easy installation
- High efficiency

#### ESP-100 Power supply 15 W

Art no: 103200.01

- Power supply for single E-series module
- Max 25 W output power, 15W continuously
- 3.2A current limit
- 7.5V output
- Input voltage range 94-264V
- High efficiency

#### Base unit EBU-100

Art no: 104100.01

- A base unit for E-series modules
- Fits 10 modules + power supply

#### Base unit EBU-200

Art no: 104200.01

- Base unit 6 HU 19"
- Fits 5 Multibox Pro

## ACCESSORIES

## Frontpanel Multibox Pro

Art no: 705410.01

Frontpanel kit Multibox Pro.  
Mounting in 19" base unit  
(EBU-200).

## DC-cable for EPP-100

Art no: 500061.01

Cabling for connection between power  
supply EPP-100 and modules in E-  
series. (approx. length 80 cm)

## Audio/video cable

Art no: 500021.01

Cable for connecting receivers and  
modulators in the E-series.  
(approx. length 20 cm)

## Wall mount plate

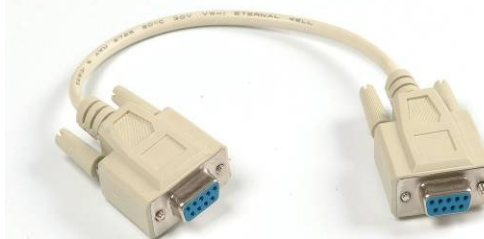

Art no: 700062.01

- For E-series modules
- Easy installation of single units

## Null modem cable

Art no: 500080.01

Cable for connection between  
EMU-100 and modules in the E-series.  
(approx. length 20 cm)
